## **Emergency Out Of Hours Cover For Livestock Registered With Our Farm Animal Department**

We understand that livestock do not always fall ill during surgery hours, and our dedicated farm animal vets provide a 24/7 service. Our phones are answered 24 hours a day by our own staff – just call the usual number and leave your name, address and phone number with the phone taker, along with the details of the emergency. The phone taker will then contact the on call farm vet to either attend the emergency as soon as possible, or if required they can give you a call back to assess your animals condition.

Emergency visits out of hours do cost more than during the day. Our current out of hours visit fee is £52 for visits between 5:30pm – 8:30am Monday to Friday, between 1pm Saturday – 8:30am Monday, and bank holidays.
